The screenshot shows a Figma design interface for a website, specifically the 'Talesoul website final' project. The left sidebar contains navigation links for 'Pages' (with 'Page 1' selected) and 'Layers'. The main canvas displays a 'All Groups' page. A modal window titled 'Create Community' is open in the center, prompting the user to enter a community name, bio, and choose between public or private settings. The background shows various community cards like 'Design Hub', 'UX Special', 'UID (User Interface Design)', 'Design Research', 'Product Dev', and 'Design World', each with member counts and small preview images.

Screenshot of a Figma design interface showing a website for "TaleSoul".

The header includes the TaleSoul logo, navigation links for Why Us, Consultant, Community, Soul Coin, and Blog, and a user profile icon.

The main content features a title: "How to make a Game look more attractive with New VR & AI Technology" and a large image of a person wearing a VR headset and holding controllers.

Text below the image states: "Google has been investing in AI for many years and bringing its benefits to individuals, businesses and communities. Whether it's publishing state-of-the-art research, building helpful products or developing tools and resources that enable others, we're committed to making AI accessible to everyone."

Another text block discusses Google's AI journey, mentioning generative AI, large language models, and Google Cloud's MakerSuite.

A quote by Pedro Domingos is displayed in a box: "*People worry that computers will get too smart and take over the world, but the real problem is that they're too stupid and they've already taken over the world.*"

The Figma interface shows various design tools and a sidebar with a tree view of page components.

Screenshot of a Figma design for a website titled "Talesoul website final". The interface shows a sidebar with various page components and a main preview area.

Ajay Mittal (4 stars) - Consulting Fee: ₹99, Platform Fee: ₹5, Total: ₹104. Date: 12 Nov 2025, Time: 10:30 - 11:00 AM.

**Footer:**

TaleSoul logo, Copyright © 2025 All Rights Reserved. About Us, Contact Us, Terms & Conditions, Privacy, Subscribe (Enter Your Email), and social media icons (LinkedIn, Instagram, Twitter).

**Figma Tools:** Selection, Move, Rotate, Scale, Ask to edit!, and other standard Figma interface elements.

Screenshot of a Figma design for a website booking page, showing the interface and components.

The top navigation bar includes links for "Why Us", "Consultant", "Community", "Soul Coin", and "Blog". A user profile icon is also present.

The main content area shows a consultant profile for "Ajay Mittal" with a 4-star rating from 1,200 reviews. Below the profile are tabs for "About", "Experience", "Review", and "FAQ".

The "Review" section displays three testimonial cards:

- Carla Schleifer**: "Amulya was incredibly helpful in guiding me through my portfolio review. Her feedback was specific and actionable, and she provided resources that helped me improve my case studies. After implementing her suggestions, I received 3 job offers!"
- Kadin Carder**: "Working with Amulya has been transformative for my career. She helped me navigate a challenging project at work and provided strategies for communicating design decisions to stakeholders. Her industry insights are invaluable."
- Emerson Levin**: "Amulya is extremely knowledgeable about design systems and helped me understand how to create scalable components. The only reason for 4 stars instead of 5 is that sometimes our sessions ran over the allotted time."

To the right, a "Select Booking Time" calendar is shown for November 2021. It highlights a 15-minute slot on November 25th. The calendar includes icons for "Video Call" and "Chat".

The bottom footer features the TaleSoul logo, copyright information ("© 2025 All Rights Reserved"), and links for "About Us", "Contact Us", "Terms & Conditions", "Privacy", and "Subscribe". A "Subscribe" input field with placeholder text "Enter Your Email" is also present.

The left sidebar contains a navigation menu with various items such as "Login Filled", "Login", "Typography", "Color", "Blog", "Sign up", "Consultant Booking", "Community", "Logo", "checkout", "Be A Mentor", "checkout", "Consultant / Technology / Data", "Consultant / Technology / Data", "Consultant / Technology", "Consultant", and "Home".

Figma URL: [https://figma.com/design/j3e2Q3eQo3ZxiWJxFTmqGK/Talesoul-website-final?node\\_id=0-1&p=f&t=9VFebxJ...](https://figma.com/design/j3e2Q3eQo3ZxiWJxFTmqGK/Talesoul-website-final?node_id=0-1&p=f&t=9VFebxJ...)

The screenshot shows a Figma design of a website for 'TaleSoul'. The main content area displays a booking page for 'Ajay Mittal'. On the left, a sidebar lists various UI components and pages such as 'Login Filled', 'Login', 'Typography', 'Color', 'Blog', 'Sign up', 'Consultant Booking', 'Community', 'Logo', 'checkout', 'Be A Mentor', 'checkout', 'Consultant / Technology / Data', 'Consultant / Technology / Data', 'Consultant / Technology', 'Consultant', and 'Home'. The main content area includes a header with the TaleSoul logo, navigation links for 'Why Us', 'Consultant', 'Community', 'Soul Coin', and 'Blog', and a user profile dropdown. The 'Booking' section shows Ajay Mittal's profile with a 4-star rating (1,200 reviews). Below this, there are sections for 'Professional Experience' listing roles at Amazon and Figma, and a 'Select Booking Time' calendar for November 2021. The calendar highlights a booking session from 10:00 AM to 10:30 AM on November 25th. At the bottom, there is a footer with the TaleSoul logo, links to 'About Us', 'Contact Us', 'Terms & Conditions', 'Privacy', and a 'Subscribe' form. The footer also features social media icons for LinkedIn, GitHub, and Twitter.

Screenshot of a Figma design for a website titled "Talesoul website final". The page displays a list of mentors, specifically "All Mentor".

The header includes the Talesoul logo, navigation links for "Why Us", "Consultant", "Community", "Soul Coin", and "Blog", and a user profile icon.

The breadcrumb navigation shows "Consultant > All Mentor".

The main title is "All 2240 Mentors". A descriptive paragraph about Data Science follows:

Data Science is the interdisciplinary field that combines statistics, programming, and domain expertise to extract meaningful insights from data. With the rapid growth of digital transformation, data has become the backbone of decision-making in industries like healthcare, finance, e-commerce, and artificial intelligence. The future scope of Data Science is immense, as organizations increasingly rely on predictive analytics, machine learning, and big data to gain a competitive edge. Emerging technologies such as automation, IoT, and generative AI will further expand its applications. As data continues to grow exponentially, skilled data scientists will remain in high demand across sectors.

A search bar at the top right allows users to "Search any mentor name..." and a dropdown menu shows "Most Recent".

On the left, a sidebar contains a tree view of design components:

## The Data Science Course: Complete Data Science Bootcamp 2025

Data Science is the interdisciplinary field that combines statistics, programming, and domain expertise to extract meaningful insights from data. With the rapid growth of digital transformation, data has become the backbone of decision-making in industries like healthcare, finance, e-commerce, and artificial intelligence. The future scope of Data Science is immense, as organizations increasingly rely on predictive analytics, machine learning, and big data to gain a competitive edge.

Bestseller | Intermediate | 40 Hours | Updated: Sep 22, 2025

Enroll Now

### Skills You Will Learn

41 Skills

Database Fundamentals, CassandraDB, PostgreSQL, Database Normalization, Denormalized Data Schemas, Data Modeling Basics, Data Pipeline DAGs, Amazon S3, Online Transaction Processing, Redshift, Apache Airflow, +30 More

### Program Outline

4 Courses, 22 Lessons, 4 Projects, Download Syllabus

#### Course 1: Data Modeling

Learn to create relational and NoSQL data model to fit the diverse need to data consumers. Use ETL to build database in PostgreSQL and Apache Cassandra.

9 hours

- Intro to Data Modeling** In this lesson, student will learn the basic difference between relational and non-relational databases, and how each type of database fits the diverse needs of data consumers.
- Relational Data Models** In this lesson, student will learn the basic difference between relational and non-relational databases, and how each type of database fits the diverse needs of data consumers.
- NoSQL Data Models** In this lesson, student will learn the basic difference between relational and non-relational databases, and how each type of database fits the diverse needs of data consumers.

#### Course 2: Cloud Data Warehouses

#### Course 3: Speak and Data Lakes

The screenshot shows a Figma design for a website titled "TaleSoul". The main content area displays a landing page for "The Data Science Course: Complete Data Science Bootcamp 2025". The page includes a header with navigation links for "Why Us", "Consultant", "Community", "Soul Coin", and "Blog". A sidebar on the left contains a tree view of the website's structure, showing pages like "Page 1", "Layers", and various components such as "Login Filled", "Login", "Typography", "Color", "Blog", "Sign up", "Consultant Booking", "Community", "Logo", and "Checkout". The main content area features a hero section with a title, a brief description, and a "Bestseller" badge. Below this is a "Skills You Will Learn" section listing various database and modeling concepts. The "Program Outline" section details three courses: "Data Modeling", "Cloud Data Warehouses", and "Speak and Data Lakes", each with its own lessons and descriptions. At the bottom, there are standard Figma interface elements like toolbars and a status bar.

## The Data Science Course: Complete Data Science Bootcamp 2025

Data Science is the interdisciplinary field that combines statistics, programming, and domain expertise to extract meaningful insights from data. With the rapid growth of digital transformation, data has become the backbone of decision-making in industries like healthcare, finance, e-commerce, and artificial intelligence. The future scope of Data Science is immense, as organizations increasingly rely on predictive analytics, machine learning, and big data to gain a competitive edge.

Enroll Now

### Skills You Will Learn

41 Skills

Database Fundamentals, CassandraDB, PostgreSQL, Database Normalization, Denormalized Data Schemas, Data Modeling Basics, Data Pipeline DAGs, Amazon S3, Online Transaction Processing, Redshift, Apache Airflow, +30 More

### Program Outline

4 Courses, 22 Lessons, 4 Projects, Download Syllabus

#### Course 1: Data Modeling

Learn to create relational and NoSQL data model to fit the diverse need to data consumers. Use ETL to build database in PostgreSQL and Apache Cassandra.

9 hours

- Intro to Data Modeling** In this lesson, student will learn the basic difference between relational and non-relational databases, and how each type of database fits the diverse needs of data consumers.
- Relational Data Models** In this lesson, student will learn the basic difference between relational and non-relational databases, and how each type of database fits the diverse needs of data consumers.
- NoSQL Data Models** In this lesson, student will learn the basic difference between relational and non-relational databases, and how each type of database fits the diverse needs of data consumers.

#### Course 2: Cloud Data Warehouses

#### Course 3: Speak and Data Lakes

## Data Science

Data Science is the interdisciplinary field that combines statistics, programming, and domain expertise to extract meaningful insights from data. With the rapid growth of digital transformation, data has become the backbone of decision-making in industries like healthcare, finance, e-commerce, and artificial intelligence. The future scope of Data Science is immense, as organizations increasingly rely on predictive analytics, machine learning, and big data to gain a competitive edge. Emerging technologies such as automation, IoT, and generative AI will further expand its applications. As data continues to grow exponentially, skilled data scientists will remain in high demand across sectors.

# A Platform for Emotional Expression & Inner Healing

30+ Soul Users

Join Our Community

Long-term mentorship isn't just better - it's faster

1. Find A Mentor

2. Connect With Mentor

3. Learn From Mentor

4. Grow Together

Ask to edit

The screenshot shows a Figma workspace with a website design for 'TaleSoul'. The top navigation bar includes links for 'Why Us', 'Consultant', 'Community', 'Soul Coin', 'Blog', and 'Sign In'. The main heading is 'A Platform for Emotional Expression & Inner Healing'. Below the heading is a placeholder text 'Lorem ipsum dolor sit amet, consectetur adipiscing elit, sed do eiusmod tempor incididunt'. A user count '30+ Soul Users' is displayed with a small icon. A red button says 'Join Our Community'. To the right are three decorative images: a lit diya, a golden bowl with a face, and two women in traditional Indian dance attire. The bottom section features a process flow with four steps: 'Find A Mentor' (search icon), 'Connect With Mentor' (person icon), 'Learn From Mentor' (person sitting icon), and 'Grow Together' (two people icon). Each step has a placeholder text below it. The Figma interface on the left shows various layers and components of the website.

Screenshot of a Figma design for a website page titled "Join With Your Soul".

The page features a large input field for "Email ID" with placeholder text "Enter Email ID". Below it is a field for "Mobile Number" with placeholder text "Enter your number". Further down are fields for "Your Name" (placeholder "Enter your Name") and "Set Password" (placeholder "Enter Password"). A "Confirm Password" field follows, also with a placeholder "Enter Confirm Password". A prominent red "Sign Up" button is centered below these fields.

A "Or" separator line is positioned between the sign-up form and a "Sign in with Google" button, which includes the Google logo and the text "Sign in with Google".

At the bottom of the page, a link reads "Are you have already an account? Login".

To the right of the form, there is a photograph of three people (two men and one woman) sitting around a table, looking at a laptop screen. The laptop screen displays a logo with the letters "OC" and "RYDECK". In the background, there is a wall with a large circular logo containing the letter "E".

The Figma interface sidebar on the left shows various project components: Pages (Page 1), Layers, and a list of items including "Login Filled", "Login", "Typography", "Color", "Blog", "Sign up", "Consultant Booking", "Community", "Logo", "checkout", "Be A Mentor", "checkout", "Consultant / Technology / Data", "Consultant / Technology / Data", "Consultant / Technology", "Consultant", and "Home".

The image shows a Figma design interface for a website. On the left, there's a sidebar with 'Pages' and 'Page 1' selected. Below that is a 'Layers' panel listing various UI components like 'Login Filled', 'Logo', and 'Blog'. The main canvas displays two versions of a logo. The left version consists of a red butterfly icon above the word 'TaleSoul' in a matching red font. The right version is similar but the 'TaleSoul' text is white and placed on a solid red rectangular background. The top of the screen has a browser-like header with multiple tabs open, and the bottom has a toolbar with various icons.
